

The Digital Invoice for Switzerland

eBill

93 mn

transactions

eBill transactions in 2025. Companies send millions of eBill invoices per month.

High

payment reliability

Invoices are paid more punctually with eBill. This makes incoming payments easier to calculate.

97%

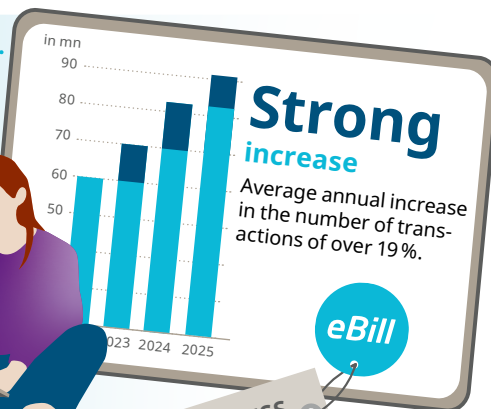

coverage

All large Swiss banks offer eBill. Thus, you can receive your invoices directly in online banking.

Many

companies

already rely on eBill with their invoicing – with an upward trend. Including the largest health insurance providers and insurance companies, all Swiss telecom providers and the energy suppliers of the largest Swiss cantons.

The solution is developed and operated in Switzerland.

Private and business customers

Everyone can benefit from eBill. Switch to eBill and activate it now.

50%

of Swiss households

With over 3.8 million users, eBill now reaches around the half of all Swiss households.

High

security

With eBill, you benefit from the high security standards of the Swiss financial center.

Sustainability and donations

An eBill invoice saves resources and paper. With the new donation function, eBill customers will be able to actively support charitable projects in the future.
