## 01 eBill Prices for NWP

### 01 — 1 Basic Price

A monthly basic price for access and use of eBill infrastructure is levied on each Network Partner (NWP) irrespective of the number of business cases, business activities or number of invoice issuers. To support Network Partners with implementing the eBill service, the basic price is levied only from the go-live date or, at the latest, from the seventh month after the contract is signed.

Access and Use of eBill Infrastructure	Price in CHF
Basic price	600
Additional price for use of a technically identical interface and software by verified third parties	250

### 01 — 2 Prices for Business Cases

	Price in CHF
Single invoice	0.18
Installment invoice <sup>1</sup>	Number of installments × 0.18
Reminder	0.18
Credit	0.18
Notification	0.18

<sup>1</sup> In 2022, the maximum number of installments taken into account is limited to four. For example: an eBill is delivered with three possible installment options. The eBill can be approved in one installment, three installments or four installments. In this case, the option with four installments (maximum number of installments) is of relevance. This means that CHF 0.18 is invoiced four times, i.e. CHF 0.72 in total.

The price includes acceptance and validation of the business case. The prices also apply to business cases that have not been successfully validated. There is no plan for scaled prices or volume discounts.

## 02 Other Prices

If necessary, the NWP can make use of eBill support and/or consulting services. These services are charged at cost.

	Price in CHF
Support per 15 minutes or part thereof	50
Consulting per hour or part thereof	200
