

**Time for origami.**

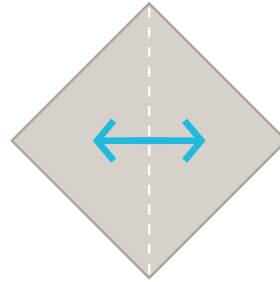

Really cool how fast paying invoices is with eBill. This leaves plenty of time for other things like origami. In just a few steps, we'll show you how to fold a penguin from a payment slip. This is not only fun, but also keeps your hands warm.

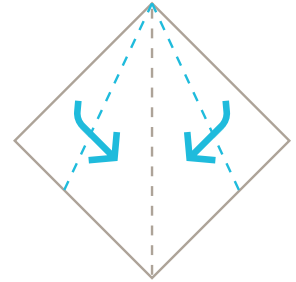

1. Fold the upper or lower right corner to make a square.

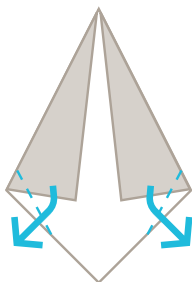

2. Cut off the excess part.

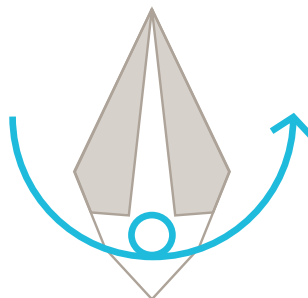

3. Fold the paper vertically in the middle and back out again.

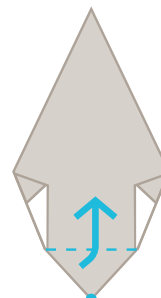

4. Fold both upper outer edges to the lower corner.

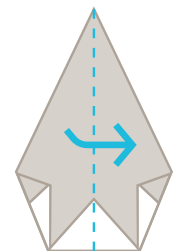

5. Fold the small corners of both outer side tips to the back.

6. Turn the paper round.

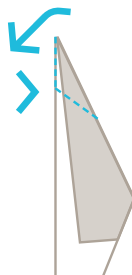

7. Fold the lower tip to the top.

8. Bend the left side onto the right side by folding the paper in the middle.

9. Bend the tip along the dashed line once to the front, once to the back, and then back to the starting point.

10. Carefully push the long side of the paper back a little, pulling the beak forward and down.

11. Done is your penguin!
